SUMMARY

Fullstack Developer with a focus on developing web applications and Rest APIs using modern technologies such as Spring Boot, .Net, Golang, Laravel, React, and React Native. Strong problem-solving skills, and always looking to improve technical skills. Committed to contribute to innovative projects and grow with the team.

SKILLS

- Java | C# | Go | PHP | JavaScript | TypeScript | MySQL | PostgreSQL | SQL Server | HTML/CSS | Git | GitHub
- Spring Boot | .Net | Laravel | React | React Native | NextJs| Angular | NodeJS | Tailwind | Bootstrap

EXPERIENCE

Trainee | PT Enigma Cipta Humanika
Fullstack Developer (January 2024 - Mei 2024)
- Developed backend systems using Java and Spring Boot, creating efficient RESTful APIs.
- Demonstrated proficiency in database management with MySQL.
- Built dynamic and interactive user interfaces using JavaScript and React.
- Developed cross-platform mobile applications with React Native and Expo.
- Build mobile aplication Ronsox Waste Bank.

Intern | PT. Poeblic Lampung Tech
Mobile Developer (Feb 2023 – Agust 2023)
- Responsible for mobile developing Waste Bank aplication using Android Studio
- Designing database using firebase to support login, registration, and user management features.

EDUCATION

Enigma Camp (Bootcamp Offline)
Fullstack Developer (January 2024 - Mei 2024)
- Expert in backend development using Java and Spring Boot, and able to design and build efficient RESTful APIs. Proficient in database management using MySQL.
- Proficient in frontend development using JavaScript, and React to build dynamic and interactive user interfaces.
- Able to develop cross-platform mobile applications using React Native and Expo.
- Played an active role as a Backend Developer in the LaTernak project, building a robust and secure API, and integrating with payment systems.

Politeknik Negeri Lampung (2020 - 2023)
Diploma III in Information Management: Information Technology – GPA 3.33

PORTFOLIO

Ronsox Waste Bank Mobile Application (May 2024 - May 2024)

- Developed a mobile application for Ronsox Waste Bank, featuring user authentication, transaction management, product management, and order processing functionalities using react native.

- Utilized Axios for efficient API interactions to fetch data and manage backend operations.
- Employed additional libraries to enhance the overall application performance and user experience.

Warung Makan Bahari Rest API (Mar 2024 - Mar 2024)
- Built a RESTful API using Spring Boot to manage various aspects of Warung Makan Bahari restaurant operations, including menu, table, and transaction management.
- Implemented strong security with JWT to protect the restaurant's sensitive data and manage user access.
- This project is the final result of the backend development bootcamp, which aims to test the understanding of Spring Boot and API development as a whole.

Warung Makan Bahari/FE (Mar 2024 - Mar 2024)
- Developed a ReactJs-based web application to streamline operations at Warung Makan Bahari restaurant.
- Managed menu, table, and transaction data within the application.
- Utilized various libraries to enhance the website's functionality and user experience.
- his project served as the final assessment for a backend development bootcamp, demonstrating proficiency in ReactJs and frontend development principles.

CERTIFICATION

- **Enigma Camp:** Fullstack Developer
- Test of English for International Communication (TOEIC) Certification, Score : 480
